

What YOU GET

VisShare is the secure and highly customizable corporate collaboration environment for your business. The days of unsafely exchanging complicated CAD data via email, FTP or cloud are over! With these unsafe and arduous methods, you lose a significant amount of control over your data, in addition to the long upload and download times. As a platform with a common database and an intuitive user interface, data can be easily and securely shared, managed, controlled, visualized and analyzed. This makes it the ideal solution for efficient collaboration and enables transparent processes and workflows across departments and as a front-end for partners, suppliers and customers.

Use your mobile phone, iPad or laptop to access your data and work on the go. Server-side rendering allows you to visualize and analyze mobile assemblies, even ones with hundreds of thousands of components, in seconds. For security purposes, 3D data is never transmitted to the mobile device – it stays safe from abuse on your server.

Explore and analyze your CAD data, CAD drawings and non-CAD data, such as Office documents or images. Quickly navigate through assemblies, select parts, show or hide them, measure, cut or explode an assembly and much more.

Your BENEFITS

- 1 SAVE TIME AND MONEY**
Collaborate easily and comfortably with your customers and partners – transparent and secure.
- 2 SECURE SHARING OF DATA**
On premises or in the cloud - no more exchanging CAD data via email, FTP or cloud.
- 3 MULTICAD COLLABORATION OF TEAMS**
Engage your partners, suppliers, and customers with a one-stop web portal to share and manage all data.
- 4 EASY WORKFLOW**
VisShare enables transparent processes and workflows across departments and departmental boundaries.
- 5 WORK EVERYWHERE AT ANY TIME**
Use your mobile devices to access your CAD data. Visualize and analyze assemblies via mobile device in seconds.
- 6 FAST VIEWING AND ANALYSING OF DATA**
Visualization plus analysis of all your 3D and 2D CAD data - more than 180 functions available.
- 7 TEAM AND PARTNER ADMINISTRATION**
Manage team access control and rights - without extensive configuration or installation effort.
- 8 EASY TO USE, EASY TO INSTALL**
Just install VisShare on a server - and you're done. No client installation is necessary ("zero-install, zero-admin").

If you would like more information or a demo license to test 3DViewStation VisShare on your own, please contact us at:

3DViewStation VisShare

WORK TOGETHER

Your corporate web platform
for MultiCAD collaboration

Fast MultiCAD Visualization

for Desktop, Web, Mobile and VR

The KISTERS 3DViewStation combines the best in 3D visualization technology, web-based collaboration, VR technology plus it is revolutionizing speed and rich functionality – with more than 180 functions at your fingertips. Speed up the process chain in your company, from engineering and design to sales and procurement.

3DViewStation is a powerful and robust 2D/3D CAD viewer for all users in need of high performance and rich functionality, no matter what device they are using. It is available as a **Desktop** application, for your daily work, as a server based **WebViewer/Mobile** version, to view your data anywhere, as a **VR-Edition** for an immersive 3D model experience, and as an **Embedded Viewer** in external applications, ranging from PLM to product configurators. All products share an identical user interface and set of functionality.

Load, open, and interact with any size model without waiting for rendering or latency. Use analysis functions such as: sectioning, measurements, smart dimensioning, exploded views and markup capabilities plus other investigative functions to gain insight from your product data. Improve communication, decision making and reduce errors through product data visibility.

Intuitive handling is one of the basic principles of 3DViewStation. We have done our best to ensure that your work with 3DViewStation is a real pleasure. A low training requirement and exceptional ease-of-use drives a high user adoption rate. If you're looking for an intuitive, easy to use application to load 3D CAD data quickly - you have found it.

Our solutions integrate into market-leading solutions, including: PDM / PLM / ERP / DMS / CMS / SLMS / MRO / PCMS / CPQ / QA. They can be integrated into a large number of systems, e.g. Enovia SmarTeam, 3DEXperience from Dassault Systemes, TeamCenter, Active Workspace from Siemens PLM, CIM Database, SAP (ECTR, DVS, CAD-Desktop), Aras Innovator and more.

FORMATS

IMPORT 3D	SOLIDWORKS	CGM
3D PDF	STEP	CREO
3DS	STL	DWF, DWG, DXF
3DVS	U3D	GERBER
3DVSXML	VDAFS	GIF
ACIS	VRML	HPGL
CGR	WAVEFRONT	HPGL/2
CATIA V4,5,6	EXPORT 3D	JPEG, JPEG2000
COLLADA	3D PDF	MICROSTATION
CPIXML	3DVS	MS EXCEL
CREO	3DVSXML	MS POWERPOINT
DWF/DWFX	3MF	MS WORD
E57	ACIS	NX DRAWING
FILMBOX	FBX	OPEN OFFICE
GLTF/GLB	IFC	PNG
HICAD	IGES	SE DRAWING
IDEAS	JT	SW DRAWING
IFC	PARASOLID	TIFF
IGES	PRC	EXPORT 2D
INVENTOR	STEP	2D PDF
JT	STL	BMP
NX	VRML	CGM
PARASOLID	IMPORT 2D	DXF
PLMXML	2D PDF	JPG
PRC	BMP	PNG
PRO/E	CALS	SVG
REVIT	V4 DRAWING	* as is
RHINO	V5 DRAWING	
SOLID EDGE	V6 DRAWING	

FUNCTIONS

MULTI CAD	ANIMATION	INSTANCING
SMART PICKING	SMART IMPORT	CLASH DETECTION
MARKUPS	SECTIONING	DRILL HOLE
2D ANNOTATION	CUT CONTOUR	NEUTRAL AXIS
3D ANNOTATION	CUT AREA	WALLTHICKNESS
DIMENSIONING	2D PROJECTION	DRAFTANGLE
MASS	PMI IMPORTING	SPLIT
AREA	PMI HANDLING	IP PROTECTION
VOLUME	PMI VIEWS	CONVEX HULL
GRAVITY	TECHDOC	MATERIALS
3D COMPARE	CAD ATTRIBUTES	SKYBOX
2D COMPARE	LARGE PRINTING	UNDO
TRANSFORM	2D STAMPS	XML API
DISTANCE	SMART VIEWS	PLUGINS
MIRROR	FLYTHROUGH	FULL SCREEN
SCALE	SEARCH	4 SPLIT SCREEN
EXPLOSION	FILTER	<i>and many more</i>
OFFSET LINES	BOM
